*In the case of non-DOD User Agencies, requests for disclosure shall be submitted to that agency.

13. SECURITY GUIDANCE. The security classification guidance needed for this classified effort is identified below. If any difficulty is encountered in applying this guidance or if any other contributing factor indicates a need for changes in this guidance, the contractor is authorized and encouraged to provide recommended changes; to challenge the guidance or the classification assigned to any information or material furnished or generated under this contract; and to submit any questions for interpretation of this guidance to the official identified below. Pending final decision, the information involved shall be handled and protected at the highest level of classification assigned or recommended. (Fill in as appropriate for the classified effort. Attach, or forward under separate correspondence, any documents/guides/extracts referenced herein. Add additional pages as needed to provide complete guidance.)

1. Classified information will be protected using the policy and guidelines established in the NISPOM (DoD 5220.22-M) and DoD Overprint (DoD 5220.22-M Sup 1).
2. The JSF Security Classification Guides (SCGs) will be used. For Official Use Only (FOUO) guidance is provided in the JSF SCG.
3. The Program Security Directive (PSD) will be used.
4. COMSEC requirements applicable to secure communications apply. See DoD 5220.22-S for details.
5. Classified material generated in the performance of this contract will require that the contractor apply derivative security classification and markings consistent with the source material.
6. The contractor will staff DD Form 254s issued to subcontractors to JSF/SC for concurrence prior to subcontracting. Team members are authorized to exchange classified information and pass classified visit certifications associated with JSF as Category-1 which do not require need-to-know certification from JSF.
7. OPSEC applies to this contract and will be conducted in accordance with NISPOM DoD Overprint (DoD 5220.22-M Sup 1) and as described in the PSD. Specifically, an OPSEC orientation must be provided to newly assigned personnel in concert with the Indoctrination. OPSEC will also be covered in annual refresher training. Areas to be briefed include, vulnerabilities to program information and compensatory measures used, significance of unclassified data, appropriate actions/responses to requests for information and any lessons learned. Emphasis should center on security as an integral element of day-to-day activities.
8. Unique handling and coordination instructions, and security classification guidance apply.
9. SCI billets will be obtained as required.
10. JSF Program Protection Planning will be executed in accordance with the JSF Program Protection Development Plan (PPDP).
11. Foreign disclosure of program information will be in accordance with established ITAR and JSF Program Office policy and procedures.

14. ADDITIONAL SECURITY REQUIREMENTS. Requirements, in addition to NISPOM requirements, are established for this contract. (If Yes, identify the pertinent contractual clauses in the contract document itself, or provide an appropriate statement which identifies the additional requirements. Provide a copy of the requirements requirements to the cognizant security office. Use item 13 if additional space is needed.) Special Access Requirements (SAR) and procedures will be governed by the DoD 5220.22-M Sup 1.
